

CO-BRANDED OCEAN SAFETY PARTNERSHIP

Keep your customers safe. Get the credit for it.

A no-cost co-brand between **Snorkel Bob's** and OceanSafe — the free app that shows Kaua'i visitors real ocean conditions and the safest spots to swim, snorkel, and surf, updated every day.

— WHAT YOU GET

- **In front of guests, daily.** Your logo opens their once-a-day ocean report — a branded impression every morning of their trip.
- **Co-branded materials.** "Powered by OceanSafe" counter cards, stickers, and welcome-book inserts carrying your logo.
- **A safety story to tell.** Fewer scary moments for guests, better reviews, less liability hanging over you.
- **Free, always.** Nothing to install, nothing to maintain, no fee to take part.

— YOUR PARTNER LINK

- **A link that's yours.** Every scan and booking it sends is tracked back to you.
- **You see the numbers.** Real counts on how many of your customers used it, over time.
- **It runs both ways.** The app points visitors to you for gear, rentals, and stays — you point them to OceanSafe for conditions.
- **No exclusivity, no lock-in.** Stop any time. We earn the placement.

How the co-brand works

1

We co-design a **"Powered by OceanSafe"** card or sticker with your logo. It lives at your counter, in your units, or in your pre-arrival email.

2

You get a **unique tracked link** and QR so every customer who scans is counted as yours.

oceansafety.app/p/yourname

3

Guests check conditions, stay safe, and remember **who looked out for them**. You get the goodwill and the data.

Why it matters here: Kaua'i's ocean changes by the hour and most visitors can't read it. OceanSafe gives them spot-by-spot, day-by-day guidance so they pick the right beach at the right time. When your name is on it, you're the local who kept them safe.
